Subject: Andrew's peer review of the USGS draft report on Pavillion

Russ, Andrew and I talked today and discussed the additional information provided by USGS regarding the workload associated with the review, and Andrew indicated that it will work for him and that he'd like to do it. So thanks to you both for his participation- I have provided his contact info to USGS and they will be contacting him. The peer review of the internal EPA document we agreed we need more information on the workload and timing, and then will discuss whether that can work. So more to come on that.
